breathe well...

with **MIM BEIM**

Mim Beim has practised naturopathy for nearly 35 years. Her breadth of knowledge and experience was recognised in 2017 when she was honoured with the coveted 'Bioceuticals Excellence in Practice' Award. Mim was also awarded a Fellowship to the NHAA Naturopaths and Herbalists Association of Australia, the oldest association of its kind in Australia.

In recent years, Mim has been exploring the influence of breath on our health. She has studied with the world's leading Buteyko Breathing practitioner, Patrick McKeown. Mim is one of Australia's foremost breathing educators helping people overcome conditions including asthma, sleep apnoea, snoring, anxiety, reflux and irritable bowel syndrome. In 2008 Mim was awarded a Fellowship of the BPI (Buteyko Practitioners International).

NATUROPATHY

BREATHING

HERBAL TEAS

“We all take breathing for granted but if you don't pay attention to your breath, no matter how healthy you think you are, if you don't breathe right, you won't feel right. Step into my *breathe better* course and improve the way you feel.”

Mim Beim

breathe well FOR ADULTS

BREATHE WELL course is run over 3 sessions. It is available 4 terms of the year in Sydney, Southern Highlands and online.

1 Session 1: *breathing* BASICS

You can choose to undertake the BREATHING BASICS course as either a 4 hour face-to-face or 2 x 2hr sessions online. This masterclass will restore your body and mind to peak health and performance.

Learn how to recalibrate and re-establish functional breathing patterns and break old habits. You will be guided by Mim Beim in a gentle and safe environment. Discover the principles and physiology of breathing and equip yourself with the knowledge to take control of your breathing health.

2 Session 2: *breathing* SOLUTIONS

The 3 hour BREATHING SOLUTIONS workshop in person or online, is a deep dive into advanced breathing exercises specifically tailored to individual needs. Here you will further refine your breathing to support your particular requirements for peak physical and mental health, and/or improving your sports performance. Mim will integrate naturopathic principles in addition to the breathing techniques providing a holistic health approach.

3 Session 3: *breathing* RESET (online only)

A few weeks after completing the BASICS and SOLUTIONS workshops you will have noticed significant changes to your breathing pattern and many other benefits. This 1.5 hour RESET workshop will reset and focus your breathing to help you adjust to your new and improved breathing pattern and fitness levels. You will be able to streamline and finetune your breathing and have a chance to ask Mim any questions.

breathe well TUNE UP (online only)

BREATHE WELL TUNE UP is available to those who have completed a BREATHE WELL course. It is a stand-alone workshop as well as being session 3 of the BREATHE WELL course (RESET). People like to take the TUNE UP workshop every few months to top up on their breathing skills.

breathe well FOR KIDS

BREATHE WELL course is run over 3 sessions. It is available 4 terms of the year in Sydney, Southern Highlands and online.

Set your child up for a lifetime of breathing well. Dysfunctional breathing patterns increase your child's risk of snoring, sleep apnoea, enlarged tonsils and adenoids, glue ear, poor concentration, compromised academic performance, anxiety, bedwetting, asthma, sinusitis, frequent coughs and colds and dental malocclusion.

1 Session 1: *breathing* BASICS

A parent(s)* or guardian is required to attend SESSION ONE BREATHING BASICS, to prepare to bring the child to session two one week later. It is important you understand the basics of breathing well, and to learn and experience the breathing exercises before your child attends.

You can choose to undertake the BREATHING BASICS course as either a 4 hour face-to-face or 2 x 2hr sessions online. This BREATHING BASICS workshop is a breathing masterclass where you will learn how to recalibrate and re-establish functional breathing patterns and break old habits. Discover the principles and physiology of breathing and equip yourself with the knowledge to help your child breathe well... and along the way improve your own breathing!

Mim will give you suggestions and homework to take home to your child in order to prepare for the following week's workshop where you attend together.

*One or more parents, guardians or family are welcome to attend.

2 Session 2: *breathing* SOLUTIONS

The 1.5 hour BREATHING SOLUTIONS workshop is where you and your child attend together. Mim will teach your child some basic breathing principles and exercises. Mim will ensure your child is doing the exercises properly and will prescribe ongoing exercises.

3 Session 3: *breathing* RESET (online only)

A few weeks after completing SESSION ONE and SESSION TWO with your child, you will have noticed significant changes to your child's breathing pattern and many other benefits. This one hour online class will help to finetune and streamline your child's breathing and have a chance to ask Mim any questions you may have.

“I had read the books but found the course invaluable. A week down and I'm already starting to feel a shift with my breathing. As a chronic asthma sufferer, this is a life changer. Relief and excitement for my health is an understatement.”

Jacqui

“Henry and I both learned a huge amount in the kids breathing course. Your teaching methods were perfectly adapted for shorter attention spans and we enjoyed the fun games, videos and practical tips. Your gentle and kind manner also ensured we retained all of your tips too.”

Nicole
